

Norton Data Protector Blocking an Action

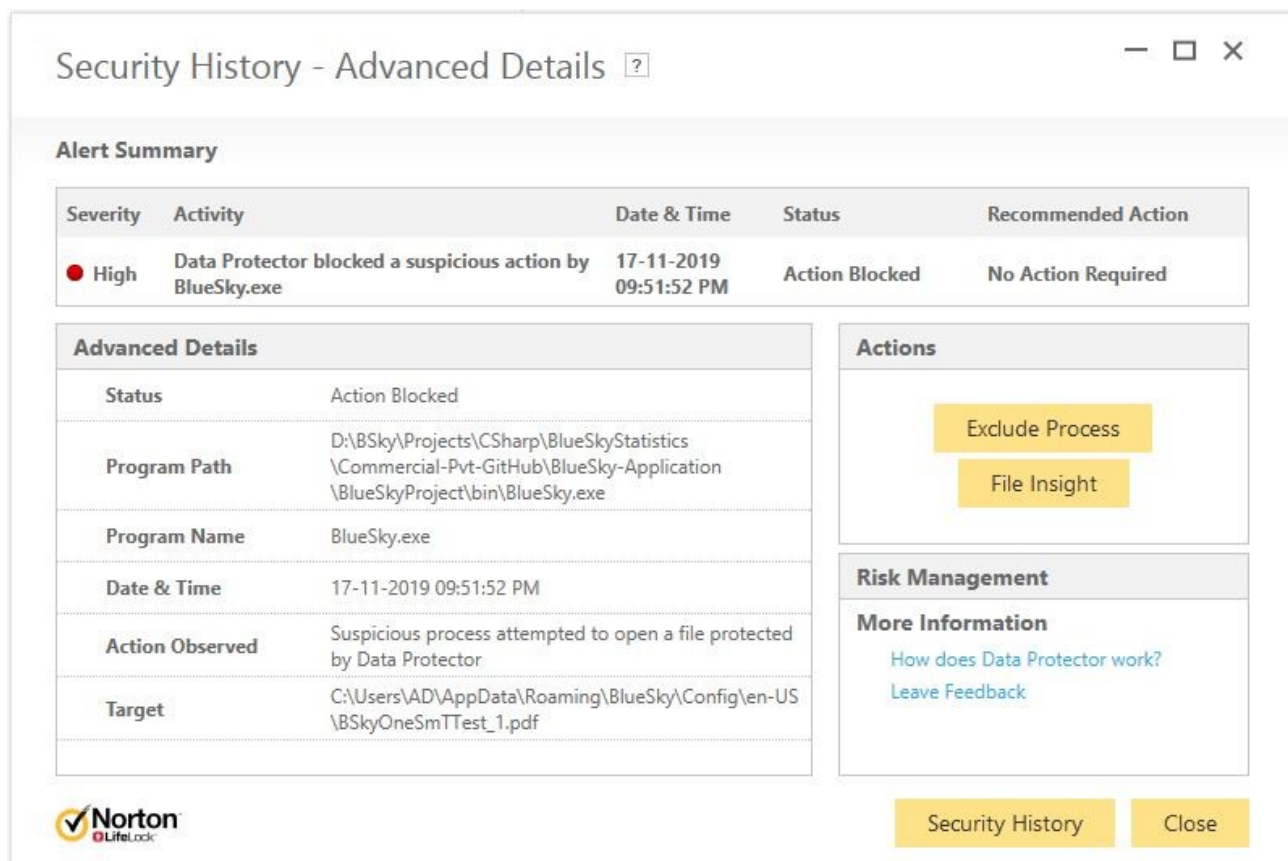

When you launch BlueSky Statistics. Norton antivirus will show following error message

This happens because of a new feature in Norton antivirus called 'Data Protector'. Data Protector alerts and blocks applications from deleting files. With BlueSky Statistics we use the R graphics device to keep track of the image file that the graphics dialogs creates, we need to delete and recreate this file as new dialogs get launched. This file is created in the following location:
C:\Users\<YOUR USERNAME>\AppData\Roaming\BlueSky\Temp

To address this issue you need to do the following:

1. Click on the 'View Details' link in the error message box above. You will see following screen.

2. Click 'Exclude Process' button to exclude the BlueSky.exe.

3. Now close BlueSky Statistics and launch it again.
